Summary

I'm Rishikesh, a dedicated MCA student with a strong grasp of web development, object-oriented programming and database management. With hands-on experience from two internships and a track record of successful project implementations, I'm poised to contribute effectively to innovative tech teams. My expertise spans full-stack web development, Java application design, and data management solutions. Eager to leverage my technical skills and passion for emerging technologies to drive value in a challenging software development role.
